In the broadest terms, the mission of CAPS is to promote academic achievement and reduce attrition and impediments to academic success. In carrying out this charge, our mission is: (1) to promote positive personal growth and self-management by UCLA students; (2) to assist students in coping with increasingly complex and stressful emotional crises, trauma and mental health issues which may interfere with academic and personal functioning; and (3) to enhance the psychological well-being and safety of the campus community. Services and programs include:

• individual counseling and psychotherapy, group therapy, emergency intervention, and psychological testing;
• psychiatric evaluation and treatment;
• crisis consultation, mentoring programs and organizational consultation;
• psychoeducational programs and workshops;
• training for mental health professionals at the masters, doctoral, postdoctoral, and residency level; and
• campus mental health and wellness promotion.

We take protecting your privacy very seriously. Our licensed independent practitioners operate under the professional conduct standard of the UC Faculty Code of Conduct and the California Department of Consumer Affairs. Our services are confidential, meaning that we will not disclose information about your treatment to anyone who is not directly involved in your care without your written permission, or as required by law. There are some exceptions to confidentiality that you should be aware of, like instances where the clinician is obligated to violate confidentiality to protect their client, or protect children or elders from potential threat or harm.
